I have known Jay for 22 years during which he was my friend, my business partner, and, in my opinion, a most impressive professional in his industry. I have great respect for his entrepreneurial spirit as well as his rapport and professionalism with clientele and staff alike.

He is able to manage massive workloads while delivering impeccable quality and has built a reputation of being one of the fastest designers in Florida.

His knowledge of software and design techniques is unmatched as illustrated by his numerous certifications and seminar teachings.

I would highly recommend Jay Roebuck for any Art Director/Creative Director position, especially one in which he has the opportunity to mentor and inspire fellow designers.
